

ASPHALT PRIMARY

Technical Sheet

DESCRIPTION

Asphalt primer based water.

ADVANTAGES

High content of asphalt.
Excellent as before waterproofing sealer.
Great adhesion in any substrate.
It helps to cover cracks and porosities.
Fast drying.
Non-toxic.
It contains no solvents.

REPAIR OF THE MATERIAL

- a) The surface of the material must be free from dust, grease, oils, impurities and false adhesions.
- b) Extends with coarse brush or toothbrush.
- c) Allowed to dry.
- d) Shake before use.

PERFORMANCE

Apply asphalt primary diluted in water in ratio 1: 4 (1 part asphalt primary 4 parts water) , a basin covers an area of approximately 100 to 120 m² depending the porosity of the substrate .

NOTE

In case of placing PP- 40 T SBS applying the asphaltic primary AL- KOAT undiluted in the translape transverse to promote better adhesion.
